

Assignment 1

Code:

// Demonstration of Variables, Methods and Constructors

```
class Student {  
  
    // Variables  
    String name;  
    int age;  
  
    // Constructor  
    Student(String n, int a) {  
        name = n;  
        age = a;  
    }  
  
    // Method  
    void display() {  
        System.out.println("Student Name : " + name);  
        System.out.println("Student Age : " + age);  
    }  
}  
  
public class Assignment1 {  
  
    public static void main(String[] args) {  
  
        // Creating object  
        Student s1 = new Student("Akshat", 19);  
  
        // Calling method  
        s1.display();  
    }  
}
```

Output:

```
Student Name : Akshat  
Student Age  : 19
```
